

 **zumex®**

Best in class yield

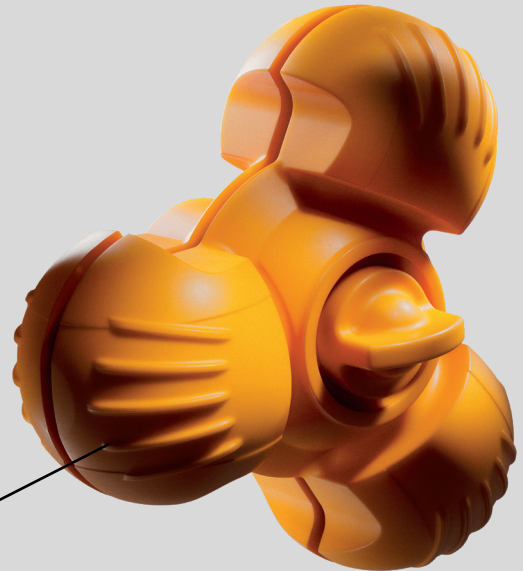

Top Performance allows more juice per orange to be extracted.

They adapt to the size of the orange to apply the appropriate amount of pressure for juice extraction. The best performance for a wide variety of oranges.

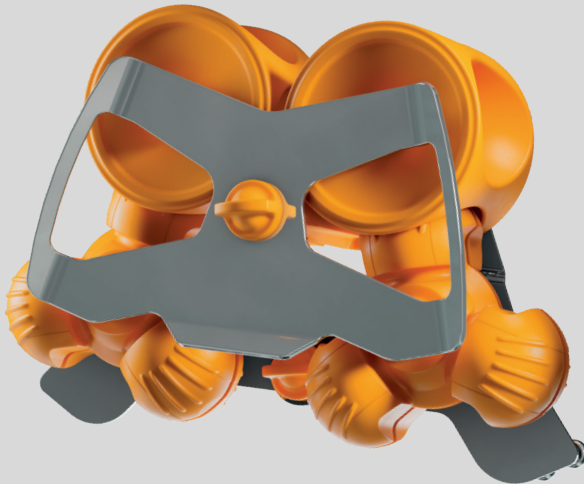

Zumex ASP[®]

The first generation of commercial juicers featuring antibacterial nanotechnology based on silver ions that inhibits bacteria growth, guaranteeing extra effective and long-lasting protection.

Patented

Take control with the new *One-Step[®]* Kit

Designed to simplify and speed up the cleaning process, with a more robust, ergonomic and easy to handle structure. It complies with NSF quality and safety standards, offering an innovative and unique solution.

Service Solution

Warranty + Zumex care - an extra protection plan for your needs

+

- No cycle limit
- No maintenance contract

Zitrux

Maximum hygiene and sanitizing.

Thanks to its load capacity of 165 lbs

**Theatralization. Catchy effect
feeding juicer one-by-one.**

**40 Fruits
per minute**

**This cleaning process follows the
principles of the Sinner's cycle.**

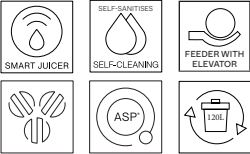

Juices:

Features:

Maximum hygiene with automatic cleaning system: built-in self-cleaning ensures perfect hygiene at all times. Water hardness required for optimal performance, use water with a hardness between 50 and 80 ppm (as CaCO₃).

Full autonomy: built for continuous operation in high-demand environments.

Smart Zitrix® system: remote management app to monitor performance, maintenance, and usage stats in real time.

User-friendly interface: touchscreen and intuitive controls for effortless operation.

Certified hygiene: food-grade materials and detachable components for thorough cleaning.

Specifications

Fruit per minute	40 fruits/ min	Voltage	220-240 V 50-60 Hz

Diameter of fruit	Kit M: 65 - 81 mm	Consumption	Squeezing 1.2 A Cleaning with detergent 10.4 A
Bottle capacity	1 liter: 32 oz 50 cl: 16 oz 33cl: 12 oz 25 cl: 8 oz	See dimensions and net weight at zumex.com	

Zitrux Compact

**40 Fruits
per minute**

Maximum hygiene and sanitizing.

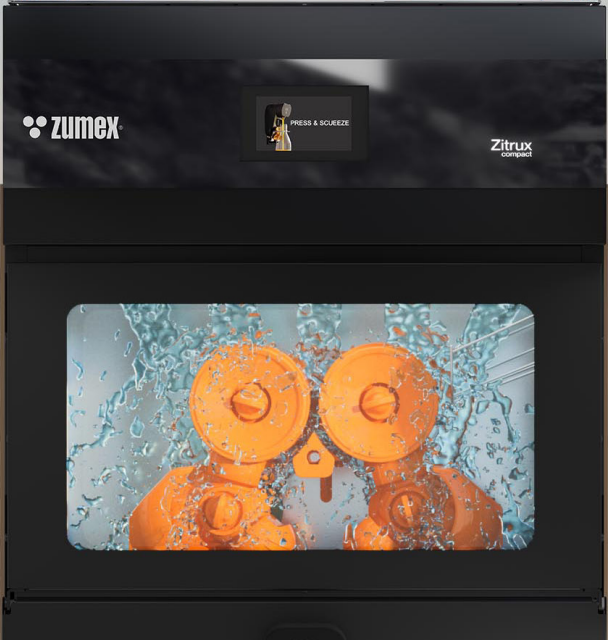

**Contactless tap, easy and intuitive.
Automatic tap hygienization.**

**Isolation of the squeezing area
increasing food safety.**

**This cleaning process follows the
principles of the Sinner's cycle.**

Juices:

Features:

Maximum hygiene with automatic cleaning system: built-in self-cleaning ensures perfect hygiene at all times.

The most compact juicer that cleans and sanitizes itself.

Full autonomy: built for continuous operation in high-demand environments.

Smart Zitrix® system: remote management app to monitor performance, maintenance, and usage stats in real time.

Certified hygiene: food-grade materials and detachable components for thorough cleaning.

Only a 4.9 sq ft footprint

Multifruit

Control Panel 2 Speeds

SOFT FRUIT

HARD FRUIT

3,500rpm -----4,500rpm

Optimal flow anti-drip tap

Better grip, more hygienic.

Titanium Shredding disc

Maximum strength for all fruits and vegetables and long-lasting sharpness.

Fuits: For all your non-citrus needs

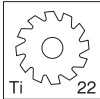

High performance commercial juicer.

Titanium disc, maximum shredding power and sharper cutting for all fruit and vegetables.

The brushless motor is more powerful and lasts 4 times longer than a conventional motor, with no friction and no heat release.

Features:

Two speeds: the speed can be regulated between 3,500 and 4,500 rpm.

More hygienic tap with improved grip and optimised flow.

Specifications

Performance	264 lb/h - 64 oz / min	Voltage	100-120V 50-60 Hz
Waste capacity	264 lb/h - 64 oz / min	Power output	870 W
Diameter of fruit	Up to 75 mm	Consumption	1.8 A

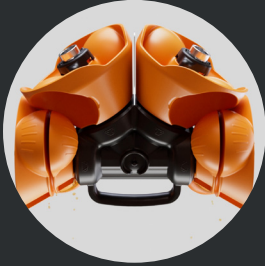

Safety

Double micro switch on handle and one on wastebucket.
Safety detection system and thermal overload relay

Soul Series 2

Top Performance Conical System[®]

Precise cutting, maximum juice and taste

Smart

Provides real-time productivity and performance data.

Pulp out

Automatic filter that removes excess pulp and seeds. Guarantees greater autonomy and consistent quality in every cup.

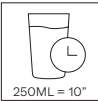

Juices:

Features:

Juicing kits for all citrus fruits. Squeezes from 42 to 81 mm diameter.

Push&Juice, with intuitive colour-coded warning button.

PulpOut System, automatic filter-sweeper to remove the excess of pulp and seeds.

1Step Case Out, clean and convenient juicing unit collection for a practical handling.

**It is recommended to squeeze rounded and thin-skinned lemon varieties.

Specifications

Essential Basic

Juices:

Features:

Essential is that one thing you can't do without. That's why we made the essential combine 3 things we believe are necessary in every one of our juicers: ease of use, performance and hygiene.

Just a single button. Press to stop. That's it- freshly-squeezed juice. When we say easy, we mean very easy, but without sacrificing functionality. You choose whether to use the anti-drip tap to pour the juice directly into the glass or jar.

We've added our most advanced juicing unit, the Top Performance, equipped with ASP nanotechnology that helps inhibit bacterial growth.

Specifications

Fruit per minute	27 fruits / min	Voltage	115 V 50/60 Hz
Feeder capacity	6/7 fruits	Power output	320 W
Diameter of fruit	M Kit: 65-81 mm S Kit (Op): 45-67 mm	Consumption	2.8 A

Safety

Double safety detector and motor locking detection mechanism

See dimensions and net weight at [zumex.com](https://www.zumex.com)

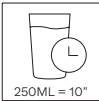

Versatile Basic

Juices:

Features:

Versatile Basic follows Zumex's philosophy on ease of use. A single button controls both the start and end of juicing. But it's even a little more convenient.

Thanks to its integrated feeding system, with a capacity of 22 lb of fruit, the unit can produce approximately 20 servings of juice before requiring a reload. This maximizes operational efficiency between loading cycles and ensures continuous delivery of high-quality, freshly extracted juice with minimal operator intervention.

We've added our most advanced juicing unit, the Top Performance, equipped with ASP nanotechnology that helps inhibit bacterial growth. The anti-drip tap makes it possible to pour the juice directly into the glass or jar. And no matter what, its built-in-waste container collects fruit residues so your business is always spotless.

Specifications

Fruit per minute	27 fruits / min	Voltage	115 V 50/60 Hz
Feeder capacity	6/7 fruits	Power output	320 W
Diameter of fruit	M Kit: 65-81 mm S Kit (Op): 45-67 mm	Consumption	2.8 A
Safety	Double safety detector and motor locking detection mechanism	See dimensions and net weight at zumex.com	

Essential Pro Pulpout

Pulpout system.

Touch control digital display

Easy to disassemble and clean

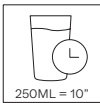

Juices:

Features:

- Manual feeder with capacity for 4-5 fruits, making juicing easier.
- Operating modes. Self-service: the machine serves the juice directly into a glass or jug.
- Autostart: the juicer starts up automatically when the citrus fruit is placed into the feeder.
- S Kit for smaller citrus fruit, such as limes and lemons (45-67 mm).
- The self-service mode comes with a non-drip tap which also has a special position for automatic dispensing.

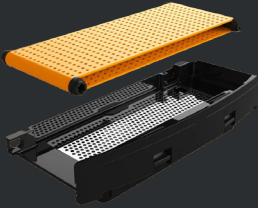

Specifications

Fruit per minute	27 fruits / min	Voltage	115 V 50/60 Hz
Feeder capacity	4 / 5 fruits	Power output	320 W
Diameter of fruit	M Kit: 65-81 mm S Kit (Op): 45-67 mm	Consumption	2.8 A
