Zitrux compact QUICK GUIDE

WHAT SHOULD I DO AT THE START OF THE DAY?

Press Restart.

Open the filter-peel door, turn to remove and clean.

Assemble the filter and turn to lock.

Set the tap return to dosing position.

Load fruit into the feeder.

WHAT SHOULD I DO AT THE END OF THE DAY?

Open the capsule door and remove any peels.

From the main menu, press Cleaning -> Sanitization.

Set the tap return to cleaning position.

A few minutes after the wash starts, open the filter-peel door, clean the pulp and then remove residues.

MANUAL DEEP CLEANING RECOMMENDED

At the end of the last sanitization of the week:

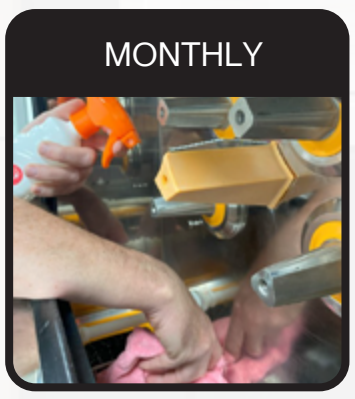

NOTE: When cleaning the capsule, rinse thoroughly to avoid leaving cleaning product residue.

Disassemble plate and clean the feeder

Disassemble juice bin and filter. Clean both and the bottom of the capsule.

Disassemble the squeezing group, juice bin-filter, and movable chutes. Clean the whole set and the capsule.

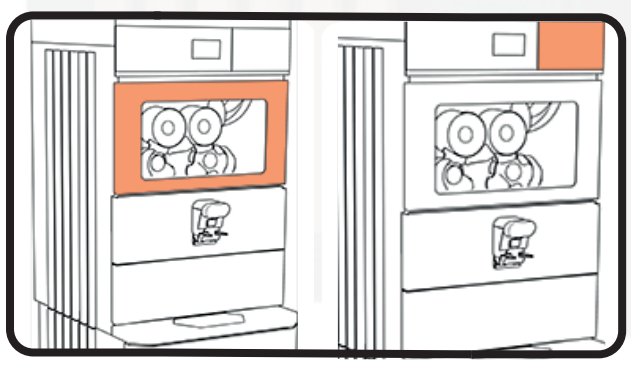

Check that there are no pieces of peels in the drainage area and in the level buoy. Tighten the 4 knobs.

Check detergent level before each wash.

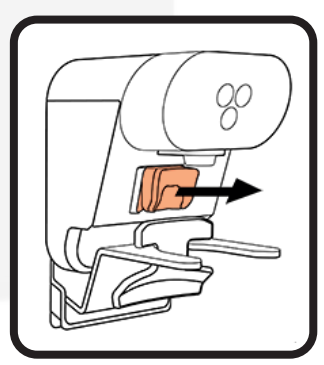

WHAT IF THE MACHINE'S LOGO zumex® IS FLASHING?

Check if any door is open.

If none are open, press the X.

A seed may be stuck in the tap – follow QR instructions.

AJ007

1. Tap motor error.
2. Tap does not dispense juice smoothly.
3. Loud noise when dispensing juice.
