You will find the warranty conditions below, available to you when purchasing a Zumex product..

Basic Warranty Conditions

Zumex guarantees the excellent quality and performance of the new product you have just purchased for a period of 5 years from its purchase, subject to the registration of the product on our website www.zumex.com within the first 3 months after the purchase date (*).

The warranty conditions and coverage that Zumex offers you as a manufacturer are irrespective of the rights you have against the official seller / distributor, derived from the sale of your new equipment.

Please read this document carefully and if you have any questions, contact us at service@zumex.com.

The product warranty cannot be extended in the event of a transfer / sale to a third party.

(*) In case of not registering according to the indicated conditions, the warranty period will be 2 years.

What is covered by the warranty?

This warranty provides for the right to have any component of the new product purchased by you replaced or repaired, provided that the defect and/or fault is due to a manufacturing flaw that results in failure of its normal operation. If the faulty part belongs to an assembly, only the part shall be replaced, except for those consumable parts and those which can be replaced during periodic maintenance.

In order to make this Zumex warranty effective, you must prove, by means of the corresponding purchase invoice, the date of purchase of the equipment, its model and serial number. For this purpose, and in order to provide you a better service, we recommend that you register your product during the first 3 months of use. Just go to www.zumex.com, and access the Product Registration section and complete the form. It is a simple process that facilitates the management of your warranty, and enables us to offer you a faster and more personalised service to better meet your needs.

Zumex may require, at any time, the shipment of the faulty part for which a replacement was requested so Zumex can assess the defect. Shipment shall be a mandatory requirement or the validity of this warranty.

In the event of a delay in the supply of spare parts for reasons not attributable to Zumex, no compensation and, under no circumstances, no extension of the warranty period can be claimed.
